ABSTRACT

This report contains data on students with disabilities (ages 3-21) in South Carolina public schools during the 1996-97 school year. The data indicate that special education students (ages 5-21) represent 12.9 percent of the student enrollment in South Carolina. The included data charts depict the following information: (1) children with disabilities ages 3-5 served in public school programs by school district and placement; (2) children ages 6-21 served in public school programs by type of disability; (3) children ages 6-21 served in public school programs in the self-contained program model by type of disability; (4) children ages 6-21 served in public school programs in the resource program model by type of disability; (5) children ages 6-21, served in the public school program in the regular program model by type of disability; (6) children ages 6-21 served in other agency programs, in all other modes of service delivery, by type of disability; (7) teachers in public school programs that serve children with disabilities ages 3-5; (8) teachers in public school programs that are serving children with disabilities ages 6-21; and (9) other personnel in public school programs serving children with disabilities ages 3-21. INTRODUCTION

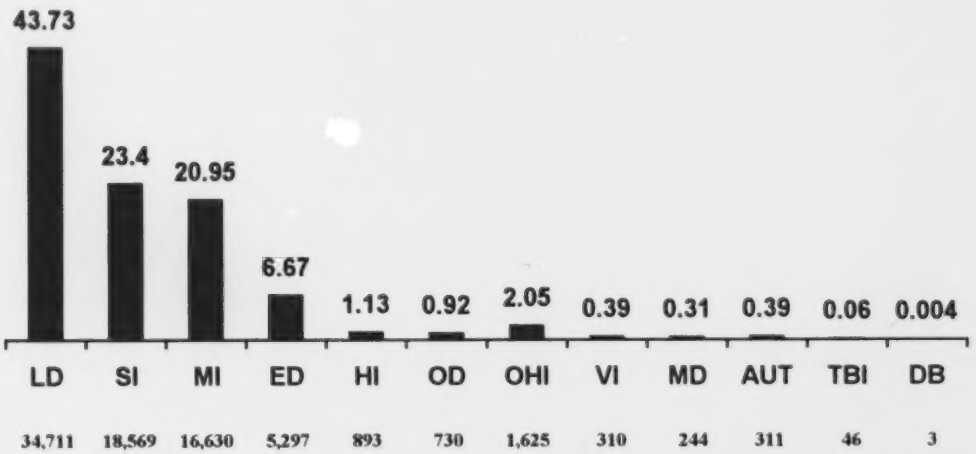
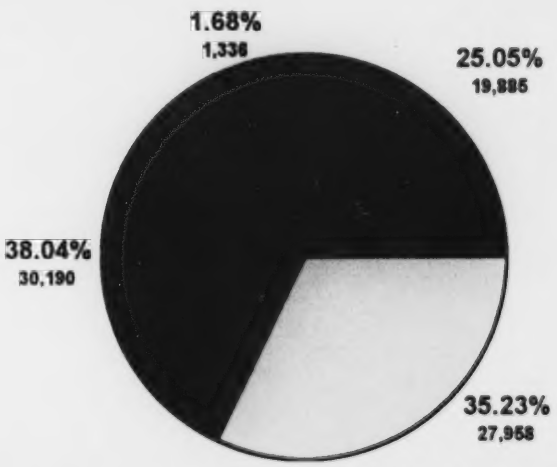
The Office of Programs for Exceptional Children, State Department of Education, is pleased to provide you with the Data Report on Public School Programs for Children with Disabilities, 1996-1997. The information contained in this document reflects the total number of students with disabilities, ages 3-21, served in public school programs. The specific data contained in this document was reported by local school districts on the FY 97 Annual Data Report required by the Individuals with Disabilities Education Act. This federal report is based on the students reported as being served on the December 1, 1996 Child Count. In addition to the number of students served, this report indicates the number and type of personnel employed on December 1, 1996 to serve students with disabilities.

SUMMARY 1996-1997

Special Education students, ages 5-21, represent 12.9% of the total student enrollment (K-12).



The above chart reflects the percentage for each category of disability comprising the 79,369 special education students, ages 6-21, in local school districts.



The percentage and number of students, ages 6-21, served in each program model.
